

**MBA  
WORLD  
SUMMIT  
2020.**

## **András Marton**

Mannheim Business School,  
MBA World Summit Participant 2019,  
MBA Alumni

**This year was the first time that MBA alumni students could take part in the MBA World Summit. How did you hear about the event and what made you decide to participate?**

I heard about the MBA Summits already while I was doing my MBA in 2016 and found the concept marvellous. But as I was doing a Part Time MBA and basically used all my vacation days for the presence times of the MBA, it was not possible for me to join and apply. You can imagine how happy I was to hear that from 2019 onwards also MBA alumni could apply, what I did.

**How was your experience with the rest of the cohort and how did that impact you?**

It were incredible three days full of inspiring people, conversations, presentations and in the end true new friends. We had a lot of fun and basically every single one of our cohort made me realize that we can achieve something great - I brought some huge motivation back home to live my dreams and let those of others come true!

**What was your biggest highlight of the 2019 MBA World Summit and why?**

My biggest highlight was.. Difficult to choose one.. A lot of things, but it really comes down to having been able to attend the Summit and being part of it!
